Cooper B-Line

Fasteners Price List January 2009

Ordering Options

Individual Orders

- Cooper B-Line will pay carriage for orders of £75.00 nett (including discount) or over
- Customer will pay carriage charge of £7.50 for orders less than £75.00 nett
- If the goods are in stock, we will ship the same day as receipt of order, providing the order is placed before 16.00 hours Mon/Thurs 12.00 noon Fri
- For urgent deliveries required before 10.00am, a charge of £50.00 will be applied
- A Saturday delivery service is available (UK only) for a charge of £50.00
- All delivery options are only available for orders received before 16.00 hours Mon/Thurs, 12.00 noon Fri

For all shipments, orders to be in multiples of the carton quantity. All dimensions quoted in this price list are in millimetres (mm) and all prices are in Pounds Sterling (£) and priced in multiples of 100. Box quantities remain as stated.

Please visit our website at www.cooperblines.co.uk for further information

This price list is intended to clearly present comprehensive product data and provide technical information that will help the end user with design applications. Cooper B-Line® reserves the right, without notice, to change design or construction of any products or discounts or limit distribution of any products. Cooper B-Line® also reserve the right to change or update, without notice, any technical information contained in this price list. Once a product has been selected, it should be tested by the user in all possible application. The information contained in this price list is correct at the time of publication, but we reserve the right to supply products differing in construction or performance.

Technical Information

Cooper B-Line Fasteners are designed for fast and economical installation of conduit, cable, threaded rod and light fittings etc. onto steel work in industrial and commercial buildings. Installation of Cooper B-Line Fasteners requires no special tools. Most fasteners are installed with a hammer, screwdriver and pliers.

Material

Cooper B-Line spring steel fasteners are manufactured from spheroidized annealed high carbon cold rolled steel (ASTM A684, AISI 1055). Mild steel fasteners are manufactured from electrolytic zinc coated steel (ASTM A591) or pre-galvanized steel (ASTM A526). Malleable iron beam clamps conform to ASTM A47. Select fasteners are made from stainless steel which conforms to AISI Type 302 or 304 materials.

Finishes

The surface coatings are an important part of Cooper B-Line Fasteners and provide protection against corrosion. Standard finishes are indicated on each catalogue page and consist of one of the following:

H-ZINC = Hot dip galvanized zinc coating generally with 50-70 microns of zinc. Designed for use indoors and outdoors in mildly corrosive environments.

M-ZINC = Mechanical zinc coating with 20 microns of zinc and a chromatic sealer. Corrosion resistance is 500 hours in a saline spray test according to ASTM B117-90 and DIN 50021.

E-ZINC = Electro-galvanized zinc coating with 8-15 microns of zinc. Corrosion resistance is 90 hours in a saline spray test according to ASTM B117-90 and DIN 50021.

P-ZINC = Pre-laminated sheet steel with 15 microns of zinc. Corrosion resistance is 90 hours in a saline spray test according to ASTM B117-90 and DIN 50021.

PH-ZINC = Zinc Phosphate provides a minimum of 1 milligram of zinc per square centimetre. Corrosion resistance is 72 hours in a saline spray test according to ASTM B119-90 and DIN 50021.

PVC = Polyvinylchloride coating design to provide excellent corrosion resistance.

PAINT = Acrylic enamel coating. Corrosion resistance is 200 hours in a saline spray test according to ASTM B117-90 and DIN 50021.

ALUM = Extruded from Aluminium Association alloy 6063-T6 (ASTM B209).

Load Data

The design load ratings for Cooper B-Line Fasteners are specified in our latest catalogue as static load capacity or ultimate static load capacity.

 = static capacity limit with a safety factor of 3.

 = ultimate static load capacity with no safety factor

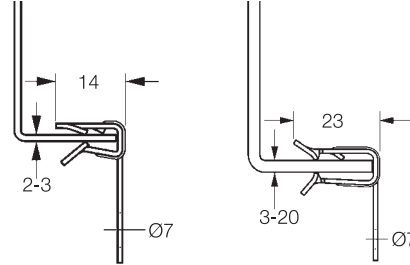

In either case these stated loads are not to be exceeded and loads should be applied only as depicted in the catalogue and installation sheets. The load capacity of a fastener having more than one component is equal to the load capacity of the lowest rated component.

Fasteners having no load ratings are designed for proper placement only and not for supporting loads.

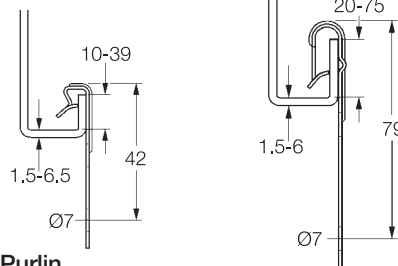

1kg = 10N 1kg = 2.2046 Lbs

Applications

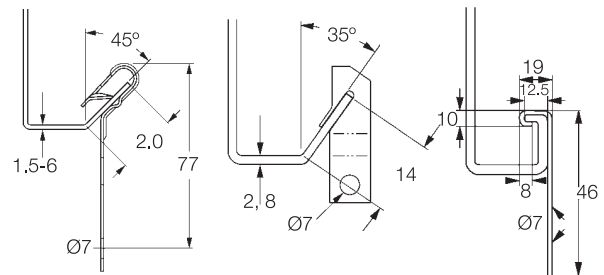

Horizontal Flange

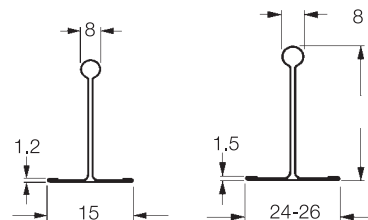

Vertical Flange

Z - Purlin

T- Bar

Cooper B-Line reserves the right to make specification and design changes without notice.

Cooper B-Line Fasteners are designed for use with angle beams, bar joists, wire, rods, etc. as illustrated in this catalogue and installation sheets. Cooper B-Line is not liable for improper installation. Although corrosion resistant, Cooper B-Line Fasteners are designed for use indoors and in non-corrosive environments.

Price List Terminology

B Line No. = Catalogue Number

UPC/Part No. – Universal Product Code/Part Number

Price Each = Price per piece, pair or metre of length

POA = Price on application

Terms & Conditions

All deliveries are subject to our standard terms and conditions of sale. Prior to placing orders, we require acceptance of our standard terms and conditions. (See last page of this price list).

NOTE: Referenced catalogue page numbers correspond to our Fastener Catalogue IBLF-03 and available appendixes.

Return of Goods

When requesting the return of goods, customers should note the following:

- Requests for the return of goods should be made to the Customer Service Team, tel +44 (0) 1278 788 000; giving the reason for the requested return, together with appropriate despatch/invoice number.
- Authorisation to return goods is issued solely at Cooper B-Line's discretion. No goods may be returned unless a **Return of Materials Authorisation Form (RMA)** has been signed by ourselves and faxed or sent to you.
- The returned goods must be marked with the RMA number on both the cartons and your paperwork, otherwise Cooper B-Line reserve the right to refuse the goods and return them.
- Except in cases of alleged damage in transit, faulty manufacture or where goods meet the requirements of an authorised stock cleanse program, consideration will only be given to authorising the return of goods where such goods meet the following criteria:
 01. Cooper B-Line labelled, purchased directly from Cooper B-Line and of current specification
 02. In their original unopened condition
 03. In saleable condition
 04. Purchased in the last 12 months
- No authorisation for the return of goods guarantees that a credit will be issued for those goods.
- Where Cooper B-Line is not at fault, but is prepared to authorise a customer's request to return goods, a handling charge of 25% of the order value, will be deducted from the value of any resultant credit.
- Fourteen clear days notice (prior to due date) must be given to enable an order cancellation to be processed effectively.
